THREE TIMES PURIFICATION, A GOOD DEED FOR YOUR HEALTH

Pollen, dust and pet hair are just some of the potential causes of allergies, asthma and respiratory problems.

A Daikin air purifier cleans the air and relieves you of these troubles thanks to a three-part operation:

- > allergen removal
- > virus and bacteria removal
- > odour removal

Daikin has already received great praise for its air purifiers: a UK allergy certificate and the Daikin TüV award confirm the efficiency of our units.
